

USAF RETIRED BAND DIRECTORS SOCIETY

Retiree Bulletin - 9 - 83

Ed Haines: On 2 Aug 83 Ed died. We feel we have lost another fine member of our society. Ed was in the hospital for approximately six weeks being treated for Multiple Myelin when he died. All who knew Ed admired his outstanding musicianship. He was the first Concertmaster of the original group of The USAF Symphony Orchestra and the Strolling Strings. His wife Jackie lives at their home in Kissimmee, Florida. Ed had already signed the contract for this coming season with the Florida Symphony Orchestra.

Bernice & Gene Rosheger: Gene reports that their Chamber Group performed at Kirkpatrick Auditorium at Oklahoma City University. Iris & Dick Thurston attended and they all attended a reception following the concert.

Arlene & Dick Dougherty: Dick is now working for a Graphic Products Corp., as their marketing manager. They manufacture art aids, used in the preparation of camera-ready art-work for news-letters, flyers, posters, signs, etc. He is not working in the music business anymore, but keeps his hand in by playing trumpet in a community band.

Vie & Frank Lockwood: They are doing great! Frank retired from teaching at the end of last June 83.

Ed Sanford: Ed is doing fine; holding his own and tuning pianos when he wishes. He reports that since his retirement in 55 from the USAF, he went to work with First Federal Savings & Loan (56-71) and retired again as Vice President & Ass't Loan Officer.

Dona & Jim Roland: You can see how things are going with the Rolands; notice the AF Times article. Hope more of us can jump on the wagon and let the "powers that be" know how we feel.

Hope & George Attridge: Note newspaper clipping; also George played golf in the Colorado Seniors Golf Tournament.

Mae & Paul Weckesser: The information on Mike Mudre (news-clipping) was sent to me by Col Weckesser. There are several bandleaders who knew Mike, he was PR man with The USAF Band. Those of us who knew Mike, know what a great value he was to the band and an outstanding worker. Several of his contributions are still in use today.

CONVENTION IN FLORIDA: I have talked this over with authorities in the area and either May or September are the best two months. I can get you a room rate of \$26.00 plus 7% tax, total \$27.82 a night. This is in the International Inn, located on International Drive, not far from all of the Worlds and many other extras. The room accommodates up to four people for the one price. Also, the Naval Training Center isn't far away and you can get tickets for the attractions at reduced prices. Now, let me know which month you are interested in of the two, and the majority rules. This will be for 1984; so let me know no later than 31 December 1983.

A handwritten signature in cursive script, reading "Louis C Kriebel", is displayed on a light gray rectangular background.
